

## **CONVERSION INSTRUCTIONS**

### **Traditional ground coffee System to Caffitaly System**

#### **Kit Contents:**

Caffitaly Brew plate (including plastic piercer and 2 seals)  
Caffitaly Brew handle  
Allen screw – size 4

#### **Tools you will require.**

1x 4mm Allen key  
1x5mm Allen key  
1x Pozi Drive screwdriver (size No 2)

#### **Instructions for removing the Brew Unit**

Step 1, Disconnect the machine from the power source. Remove all items such as water tank, drip tray etc. Turn the machine upside down to gain access to the brew head.

Step 2: Using a pozi drive screwdriver unscrew the shower disk . (Fig 1)

Step 3 Remove the 2 Alan key bolts from the brew head (Fig 2) to remove the brew head.

Step 4, Remove the filter seal from brew head (Fig4),

Step 5 Fit the Caffitaly brewing plate using the allen screws provided. Ensure seal is fitted correctly.

Step 4, Re-assemble machine with tank and other parts removed in step 1. Use the new filter handle. You can now use the ecaffé capsules.

#### **IMPORTANT NOTICE**

Gaggia United Kingdom Limited will not be held responsible for any work or modifications carried out by the user. A charge may apply for any rectification of faults arising as a result of customer misuse or work carried out on the machine by an unauthorised person.

Once you have completed the conversion you should have the following :

1x Traditional Brewing Handle  
1x 1 Cup Basket  
1x 2 Cup Basket  
1x Shower Holding Plate  
1x Filter Seal  
1x Shower Disk  
1x Shower Disk Screw  
1x Coffee Measuring Spoon  
1x Tamper

Please retain them if you intend converting your machine back to traditional system at a later date
